objective

I aspire to contribute my development and engineering skills to a team that allows me to grow both as a developer and professional. I enjoy iOS App Development and Web Development, and I hope to utilize and further develop these passions in a professional setting. My recent internship experience with the U.S. Agency for International Development has helped me determine that a career that focuses on helping others and improving the lives of others through technology is my ultimate goal. I plan on pursuing a Master's degree to expand my knowledge and potential while working to gain real-world experience as a developer.

skills

Technical

Drupal Web Content Management, Data Structures and Algorithms, E-Commerce, iOS App Development, Web Development, SolidWorks, XCode, Visual Studio, Axure RP

Office

Google Drive(Calendar, Docs, Sheets), Microsoft Office(Excel, Word, PowerPoint), 4 years of customer service experience (answering phones, cash handling, interacting with customers)

Government

I hold government clearance at the secret level with USAID.

education

2013-2018 **B.S. Computer Science, B.A. Political Science double major**
Minors: Spanish, Public Policy, GPA: 3.87

ASU

projects

F 2017

NASA Psyche Asteroid Mission Mobile App

I will be working in a team environment during the 2017-2018 school year to design and develop a mobile application for the NASA Psyche Asteroid Mission led by ASU. The goal of the app is to share the excitement of the NASA mission with the public.

Sp 2017

coffeeNOW iOS App

github.com/pnovaz

I created a small app that allows users to find the nearest coffee shop, create a profile, and add a list of favorite coffee shops. I designed and developed the app using Swift 3 and XCode.

Sm 2016

Comic Book Website

github.com/pnovaz

A simple e-commerce website I created for a summer class I decided to take for fun. I designed and developed the site with basic HTML/CSS.

tech experience

Sp 2016 **U.S. Agency for International Development (USAID)** Washington, DC
I served as a full-time Program and Technology Management Intern for the bureau for Legislative and Public Affairs. I was in charge of reconstructing the bureau's website using Drupal. I single-handedly updated the content for each division of the bureau and made sure the web presence for all members in the bureau was accurate and up-to-date for the rest of the Agency to see. I also scheduled interviews, handled travel documents for Foreign Service Officers, wrote Standard Operating Procedures, escorted high profile guests and helped coordinate Agency events.

leadership

2011-2015 **Harkins Theatres Team Member/Leader** Phoenix, AZ
My duties included serving customers in Box Office, selling/upselling concession items, and ushering. I received an award for great customer service and for selling the most promotional items. I also helped train new team members.

relevant cs coursework

Data Structures and Algorithms(C/C++)
Object-Oriented Programming(Java)
Computer Organization (Assembly Language)
Intro to Programming Languages(C, C++, Scheme, Prolog)
Principles of Mobile App Development(Swift)
Intro to Software Engineering (Java)
Operating Systems(C)
Database Management(Microsoft Access, SQL)
Human Computer Interaction (Axure)
Distributed Software Development(C Sharp, ASP.NET)
