objective

I aspire to contribute my development and engineering skills to a team that allows me to grow both as a developer and professional. I enjoy iOS App Development, Web, .NET and Software Development. I hope to utilize and further develop these passions in a professional setting.

education

2012-2018	**B.S. Computer Science, B.A. Political Science double major**	ASU
	Minors: Spanish, Public Policy GPA: 3.77	

skills

Technical

iOS App Development, .NET Development (WCF, ASP, WF), Web Development, Web Content Management (Drupal), Data Structures and Algorithms, Service-Oriented Development, SolidWorks, XCode, Visual Studio

Office

Google Drive (Calendar, Docs, Sheets), Microsoft Office(Excel, Word, Access), 4 years of customer service experience (answering phones, cash handling, interacting with customers)

projects

2017- 2018   NASA and ASU Psyche Asteroid Mission iOS App   nasa.gov/psyche
For my senior year capstone project, I developed an iOS app for the NASA led ASU mission to a metallic asteroid called Psyche. I collaborated with four fellow computer science students, a graphic designer, and a project manager. We used XCode and Git to manage the project. For my contribution to the app, I implemented an augmented reality feature using Apple's ARKit.

Spring 2017   coffeeNOW iOS App   github.com/pnovaz
I created a small app that allows users to find the nearest coffee shop, create a profile, and add to a list of favorite coffee shops.The app also features a map that displays the nearest shops to the user. I designed and developed the app using Swift 3 and XCode 9.

Spring 2017   .NET Web Application   github.com/pnovaz
I developed an ASP.NET web app for my Service Oriented .NET Development class. The app allows the user to create an account, log in/out, add and delete members in an XML file, and access web services developed by my teammate and I.

Sm 2016   Comic Book Website   github.com/pnovaz
A simple e-commerce website I created for a summer class I decided to take for fun. I designed and developed the site with basic HTML and CSS.

tech experience

Spring 2015   **U.S. Agency for International Development (USAID)**   Washington, DC
I served as a full-time Program and Technology Management Intern for the bureau for Legislative and Public Affairs. I was in charge of reconstructing the bureau's website using Drupal.

leadership

2011-2015   **Harkins Theatres Team Member/Leader**   Phoenix, AZ
During my four years with Harkins, I developed and perfected my customer service skills. Some of my duties included serving customers in Box Office, answering customer questions over the phone and in-person, selling and up-selling concession items, and ushering. I received multiple awards for great customer service and for selling the most promotional items. I also helped train new team members.
